

## Boil Water Notice update:

As of today Tuesday June 24, 2025, we are still under a boil water notice. We are still collecting water samples to provide to VDH per their regulations and once we receive confirmation from them that we can lift the boil notice we will push out an alert to those who signed up. It will also be posted on our website as well as the Town and County's and our voicemail here at the office. We appreciate everyone's patience as we work through this.
